

Progress on Flexibility in the Bologna Reform

Project number: 134538-LLP-1-2007-1-BE-ERASMUS-EMHE

---

## Vorseminar 2

### **BeFlex Plus – Bologna and LLL**

Ina Grieb, Universität Oldenburg

Pat Davies, EUCEN, Director BeFlex Plus

Oliver Janoschka, EUCEN Projects Director

The first BeFlex Project broke new ground – it was the first attempt to map the state of play in University LLL in Europe and one of the most visible results was a strong influence on the University Charter for LLL produced by EUA.

This follow-up project – BeFlex Plus is also producing important results which will impact on the policy making process at European level (see <http://www.eucen.org/BeFlexPlus/index.html> for further information).

In the workshop we will present some of these results, focussing on the changes that are taking place in ULLL across Europe as the Bologna process is embedded and as it impacts on the management, organisation and types of programmes offered as ULLL, along with some examples of interesting practice. We will also present the recommendations that will appear in our final report and we hope to provoke a stimulating discussion and debate in the workshop.
